C39 Removal of transactions from the list

Test Cases > Home site

Your session is about to expire due to inactivity Continue working?

Type	Priority	Estimate	References
Functional	Medium	None	None

Automation Type: None

Preconditions
Turning on a computer with Internet access, opening the Mozilla Firefox browser, entering the website <https://kapusta-qa.netlify.app/>, logging in using the correct e-mail and password: anna12@gmail.com, Anna1234

Steps

- On the main page, in the Expenses tab, the user selects the date of December 28, 2022.
- A list of transactions added on that day is displayed below.
- The user selects the transaction named Enter test 1 and several trash button on the side.
- The transaction has been removed from the list.

Expected Result
The user can remove the transaction from the list.

In section Home site.

Preconditions
Turning on a computer with Internet access, opening the Mozilla Firefox browser, entering the website <https://kapusta-qa.netlify.app/>, logging in using the correct e-mail and password: anna12@gmail.com, Anna1234

Steps

- On the main page, in the Income tab, the user selects the date of December 26, 2022.
- The date of the transaction has been changed to December 26, 2022.
- A list of transactions entered for that date is displayed below.
- The user clicks the trash can icon on the transaction named \$500 Bonus.
- The Bonus transaction has been removed, the Balance field has been reduced by USD 500, the transaction amount in the month summary has also been reduced by USD 500.

Expected Result
When deleting a transaction, the value in the Balance field was reduced by the amount of this transaction, the same happened in the summary in the month in which this transaction was visible.

Your session is about to expire due to inactivity Continue working?

Type	Priority	Estimate	References
Functional	Medium	None	None

Automation Type None

Preconditions

Turning on a computer with Internet access, opening the Google Chrome browser, entering the website <https://kapusta-qa.netlify.app/>, logging in using the correct e-mail and password: anna12@gmail.com, Anna1234

Steps

1. The user on the home page on the right, clicks the Reports icon
2. You have been taken to the Reports page
3. The user sees the Current Period button on the right side (from the Balance field).
4. The user clicks the left arrow
5. The report for the previous month is displayed on the page
6. The user double-clicks the right arrow
7. The report for the current month is displayed on the page, you cannot go to the report for the next month

Expected Result

The user sees a button to switch between months with the ability to switch only between the current month and previous ones.

Dodaj Epik / KAP-7

ENVIRONMENT: Windows 10, Google Chrome Version 100.0.4896.121 (Official Build) (64-bit)

Steps to reproduce :

1. Go to <https://kapusta-qa.netlify.app/>
2. In the registration field, enter the e-mail address an.na-maria_123@wp.pl
3. In the password field, enter the password 1234567
4. An error message appears in the upper left corner.

Actual result - successful user registration with Latin letters, hyphen, numbers, dot and underscore in the name of the email address.

Expected result - impossible to register a user whose email address contains Latin letters, a hyphen, numbers, a period and an underscore in the name of the email address.

When deleting a transaction, there is no modal window with the option to confirm or cancel the action

Start date Brak

Impact Brak

Opis

40 : Appearance of a modal popup when deleting a transaction from the list
<https://swiderqa.testrail.io/index.php?cases/view/40>

Preconditions - turning on a computer with Internet access, opening the Mozilla Firefox browser, entering the website <https://kapusta-qa.notify.app/>,
login: anna12@gmail.com and password: Anna1234

Environment - Windows 11, Mozilla Firefox 108.0.1 (64 bit)

Steps to reproduce :

1. The user selects a transaction from the list and deletes it by pressing the trash can icon on the right
2. The transaction was successfully deleted

Actual result - After pressing the trash can icon for the selected transaction, this transaction was automatically deleted;
